

ROADSHOW

NORDIC TESTBED NETWORK

Forest machine robotics/remote control demo for forest forwarder – from Ouluzone to SkogForsk Uppsala

Date and place: May 9th 2025, Ouluzone

Cutting-edge technology: Come and see – **and try!** – the far remote controlled forest machine and other demos!

Participants can look forward to a thought-provoking demonstration, fresh inspiration, and the rare chance to try remote control of forestry machines from Finland to Sweden.

By highlighting the potential for research collaboration also for technology companies and machine manufacturers, the event also aims to strengthen and expand international partnerships within the Nordic Testbed Network.

Deadline: May 3rd

Organizers:

University of Oulu, Civil Engineering,
Prof. Rauno Heikkilä, Dr. Tanja Kolli
Skogforsk, Uppsala, Petrus Jönsson
and Tobias Semberg

Preliminary program

9:00 Coffee at Ouluzone

9:30 Welcome and short introduction to collaboration work between University of Oulu and Skogforsk

10:00 Demos and introductions

- Remote Control for forwarder
- Possible other activities

11:00 Lunch in Ouluzone

12:00 End of the event

Practical information

Time: 9.5.2025

Place: Ouluzone,
Kuusamontie 3250,
91310 Arkala
Finland

Target groups

- Forest machine manufacturing companies
- Automation developers
- Researchers
- Teachers
- Students
